MEMORANDUM FOR: Mr. Peter M. Flanigan
Executive Director
Council on International Economic
Policy

SUBJECT : CIA Comments on a Proposal for the
Improved Handling of US Private
Sector International Economic
Grievances

We think the proposal for a computerized center to be a good one. It clearly would be a marked advance over present practices. From our point of view, depending on how the complaint data are arrayed, it could help to identify areas where more research is needed. While we would be pleased to consult in the formative stages of such a computerized center we do not see the Agency taking an active role in supplying complaint data as we do not normally collect the kinds of information the center would require.
